*I*N compiling this catalogue, our aim has been to assist the Designers and Manufacturers in the selection of appropriate hardware and mountings to properly embellish their suites or odd pieces of furniture.

Having recently purchased the Berbecker-Rowland line of trimmings, which we will produce in our plant, we have added to our previous extensive line of authentic hardware, a great number of reproductions of English designs in furniture trimmings.

These will be of particular interest to those who are continually seeking the best and most appropriate in metal trimmings to carry to completion the ideas which they have transformed into beautiful furniture of pure design.

In looking through this catalogue you will immediately appreciate the extreme care and attention we have exercised in selecting from our enormous number of patterns only those designs which would clearly and truly represent the periods from which our designers received their inspirations.

You will notice that a great many of our designs are authentic reproductions.

## FINISHES

Not only in our designing is extreme care and attention to detail given, but also in the manufacturing to properly prepare the article for different finishes, the quality and beauty of which is acknowledged as the best in Furniture Hardware.

We supply our designs in all of the standard finishes, as well as in many special and individual finishes.

Our finishes cover all of the Brass, Bronze, Gold and Silver effects in many variations and combinations.

## IMPORTANT

In ordering clearly specify the pattern number and finish required on each item.

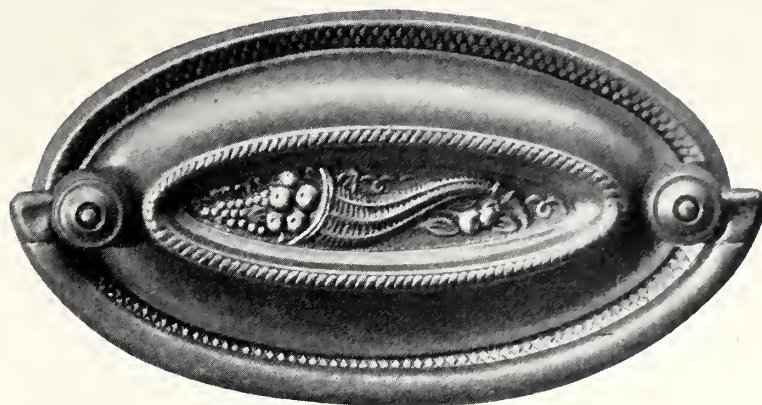

See Pages 21-22 For Numbers

These designs were originally brought out by the Keeler Brass Company as a true interpretation of the "Wedgewood" decoration. The colors illustrated, "Blue and White," also "Green and Ivory" are exact reproductions of the original Wedgewood colors. Other color combinations can be supplied.

A few of the many different designs comprising our line.  
We turn and finish wood knobs in our own plant, thus insuring uniformity and quality of finish.  
Knobs furnished in any wood, any standard size, either in the white or finished.

Our line of Bullet Catches is the best on the market. Casings are absolutely varnish-proof except on Pattern G271. 3911 has a ball which not only recedes but also revolves when coming in contact with the strike plate, making it the very best catch for fine cabinet work.

In ordering Catches, please specify Strike Plate you want.
